1. The Red Army has constructed a large ammunition depot in the woods between Eberswalde and Biesenthal. The work was done by the Russians themselves. Side tracks have been installed. It is impossible to get close to the depot since it is strongly guarded. Ammunition has already been stored there and more is being brought.
 2. In the period between 16 and 22 March about 100 new 3-axled trucks have arrived at Eberswalde. The trucks are in the barracks on the way to Rad-Freienwalde.
 3. Maneuvres involving all types of weapons took place in the area of Biesenthal-Eberswalde between 20 and 23 March. Tanks were also used.
 4. A large barracks construction is under way at Werbellin-See. It is supposed to be completed in July or August, 1952.
